Tag L2 **Anib Lodge Mariental, DBB, incl. afternoon nature drive** **265km**

This feeling never leaves us. The drive to Anib Lodge takes care of this. In the middle of a private Located in a nature reserve, we see everything from Africa's largest antelope, the eland, to... deer-sized Steenbuk almost everything Namibia has to offer. And that on the red dunes of the Kalahari. Excursions and hikes after dinner are offered on site.

Tag L3 **Sossusvlei Taleni Lodge, DBB** **315km**

The Sossusvlei Taleni Lodge is located directly at the entrance to the Namib Naukluft Park. On the way there - today the journey runs from east to west - we climb down into the Namib plain, with an approximate altitude difference of around 1000m. The next morning we drive from the lodge directly into the dune sea of the Namib to admire the highest shifting dunes in the world in Sossusvlei.

Tag L4 **Namib Desert Lodge, DBB** **190km**

Go to Sossusvlei. These dunes are 300m and higher. Big Daddy even 350m from top to toe. Why do we just always have to give everything a name? Overnight at the Namib Desert Lodge.

Tag **L5 Day to relax, Dune Star Outdoor Camp, DBB** **30km**

Let's stay at the Namib Desert Lodge. So to speak, a day of rest, letting your soul unwind. If you want, you can go hiking, lie by the pool or relax in some other way. In the afternoon we go with our luggage with the lodge's own car to the Dune Star outdoor camp. It will be up here on the dunes lonely, quiet and if you want, you can “introspect” here in complete peace of mind. The beds have wheels and since there are no mosquitos, you are invited you to go outside for an overwhelming starry sky sleep.

Tag L6 **Swakopmund Delight Hotel, BB, 2N** **300km**

Change of scene. Through the desert to the coast on a rough sandy road, we get to Swakopmund. On the guided tour with a tour guide there is the option (i.e. optional) to fly around this. The single-engine plane takes about 2 hours from the lodge via Sossusvlei, the coast, and further north to Swakop, as we say. An experience that we recommend. It's not just that you save yourself a long,

bumpy ride - to explore the dunes from above, the meeting of dunes and sea and traces of a bygone era, namely that of the diamond prospectors - it's worth the effort. Meanwhile, your tour guide will follow in the car and you will meet in the evening at the hotel, for example the Swakop Delight. The airline knows the way, everything is within walking distance. Restaurants for every taste in Swakopmund offer seasonal delicacies; dinners here have to be paid for on site by every guest.

The highlight of this trip. Leopard tracking on Okonjima. We arrive early afternoon for coffee and cake. In the afternoon, under very knowledgeable guidance, you can go photo stalking in the lodge's own vehicles (incl.). The leopards are radio-controlled and there is a receiver in the car. If someone assumes, well, then it'll happen quickly, they'll be taught differently. It takes time……! And it's always exciting. Okonjima – home of the africat.
